Comment. The occupation of the Fliegerhorst Kaserne and Remonteschule remained the same as compared with previous reports. It is noteworthy that the AT artillery unit reported [redacted] to have been quartered in tents along the west side of the Fliegerhorst Kaserne since the beginning of July 1952 was still there in mid-September without utilizing the vacant quarters of the installation. The air force soldiers possibly belong to a construction unit as, according to another report, labors for the enlargement of Gardelegen airfield were recruited by the Stendal labor office.
